PROFESSIONAL SUMMARY

With over 8 years of experience in business development and relationship management, I've evolved from managing client accounts to leading bold growth strategies across sectors like business consulting, wealth management, engineering, security systems, renewable energy, and technology. Along the way, I've built strong partnerships, closed high-value deals, and helped businesses expand their footprint in highly competitive markets. What sets me apart is my instinct for spotting opportunities others miss and turning them into sustainable wins. I enjoy collaborating with technical teams to craft tailored solutions, and I take pride in using data and real market insights to guide decisions. At the heart of my work is a commitment to building relationships with clients, partners, and internal teams, because I believe business grows best when people do too.

NOTABLE ACHIEVEMENTS

- Led the expansion of Derive Communications Systems & Engineering Limited across 7+ corporate sectors, securing over ₦700 million in new contracts within three years.
- Built strategic alliances with ETCO, Q-Better, NDIC, NITDA, Deloitte & Touche, the Indian High Commission, and other major organizations.
- Acquired and onboarded 6 new HNI clients through strategic prospecting, referrals, networking, and relationship-driven business development in Optiva Capital.
- Generated approximately ₦650 Million in new business/investment inflows in Optiva Capital through successful conversion of qualified prospects.
- Achieved 60% of assigned sales/business target within 4 months through proactive client acquisition and relationship management.
